

If you already have a DMR ID: then your account is already created but not activated.

To gain access to your profile just click Register

Si vous avez déjà un ID:DMR votre compte est déjà cree mais pas actif.

Pour acceder a votre profile simplement clique sur Register

The screenshot shows the Radioid.net website interface. At the top, there is a navigation bar with links for Home, Database, Register, and FAQ. A red arrow points to the 'Register' link. On the right side of the navigation bar, there is a 'Sign in' button. Below the navigation bar, the main content area has a 'Status' section with the text 'Registration system is OPEN, Welcome to Radioid.net.' in red. Below that is an 'INFO' section with a paragraph of text and a bulleted list of reasons for the ID assignment changes. The text in the INFO section reads: 'Getting a lot of questions around why we are issuing 3100nnn for USA and 3020nnn for Canada instead of the State/Provincial specific ID's. There are a few simple reasons.' The bulleted list includes: 'We are running out of ID's, the old way of assigning ID's by state/prov isn't working', 'Many states/provs have already reach nnnn999, There is no where else for them to go', 'MCC numbering scheme was never designed for states/provs, This was a 'nice to have' made up system', and 'Brandmeister as of May 1st has decided to no longer route 1nnn MCC ID's'. Below the list, there is a paragraph: 'Fortunately the only real solution was to go to the base sequence of the country and start assigning the ID's sequentially. We have started with CAN and USA, but all countries will shortly follow, This solution has been implemented in the EU regions for some time. This is still only a short term solution, we will still eventually run out of ID's as there is finite list that will function with our system.'

Request New Digital ID

After you have read the page and terms proceed to register.
Après avoir lu la page et les termes proceder a l'enregistrement

Please complete the application below to have your id listed in the worldwide database. Our goal is to have a master listing so you can take a DMR radio anywhere in the world and it will work without ID conflicts. This form is for all worldwide DMR Radio/Repeaters regardless of network affiliation. REPEATER registration requires a valid frequency coordination from the recognized Spectrum Management or Repeater Council. Do not apply until you are ready to program and put the site On-the-Air and On-the-Network.

I AGREE TO THE ABOVE TERMS AND CONDITIONS

Register

On the next screen scroll down to select your country the enter your CallSign and Validate
Sur le prochain écran utilisé le menu déroulant pour choisir votre Pays et entre votre Indicatif et Valider.

Account Registration - Callsign Validation

Welcome to account registration, before we proceed, we will validate your callsign using QRZ info.
If any of the QRZ populated data on the next screen is incorrect, please change it and update QRZ.com as well.

Reset Password

*After you click the Reset Password button you will get this message
Après avoir cliqué le bouton Reset Password vous aurez ce message.*

The screenshot shows a blue header for Radioid.net with navigation links: Home, Database, Register, and FAQ. Below the header, a white box contains the text: "Thank you, If you have a valid account you should receive an email shortly from account@radioid.net , If you do not receive it, please check your spam folder." A yellow highlighted box below this text states: "Your password reset link will be valid for the next 15 Minutes."

*Then check your email for the Password Reset link.
You can click the Green Reset Button or cut and paste the link in your browser.
Par la suite vérifier vos emails pour le lien de réinitialisation du mot de passe.
Vous pouvez cliquer sur bouton de Reset Vert ou copier coller le lien dans votre navigateur.*

The screenshot shows an email interface. The header includes: "From: account@radioid.net", "Subject: Password reset", and "To: radioidtest2@va2dg.ca". The email body features the Radioid.net logo and the text: "We have received a request to reset an account password related to this email address on Radioid.net. if you requested this password reset please click the link below." A red arrow points to a green button labeled "RESET PASSWORD". Below this, it says "EMail associated with your account: radioidtest2@va2dg.ca" and "If you did NOT request to reset this password, do not click on the link." A yellow highlighted box contains the text: "If the above link does not work, please copy-paste this link into your browser." Below that, a green highlighted box contains the URL: "https://tuxzilla.radioid.net/pwreset_token?token=34728236-0e57-4acc-820c-969bf3761e50".

*After you have click the link you will get the New Password Box. In this example I did put a simple password that does not meet the requirement to show you the next screen.
Après avoir cliqué le lien vous aller avoir la Boite New Password. Dans cet exemple j'ai mis un mot de passe simple qui ne rencontre pas les exigences pour vous montrer le prochain écran.*

The screenshot shows the Radiold.net logo at the top with the tagline "Your unique DMR ID". Below the logo is a text input field labeled "New Password" containing the text "Exemple12". A green button labeled "Reset Password" is positioned below the input field.

*When you don't meet the minimum requirement you will get Invalid Password!
And we will show the minimum requirements for your password.
Lorsque vous ne rencontre pas le pré requis minimum vous aller avoir Invalid Password!
Et nous vous montrons les prés requis minimum pour votre mot de passe.*

The screenshot shows a message box with a red border and a red exclamation mark icon. The text inside the box reads: "Invalid Password!". Below this message, it states: "All password must satisfy these requirements". The requirements listed are: "Minimum of 8 characters, one lowercase character, one uppercase character, a number (0-9) and a non alpha-numeric character (e.g. !, #, \$, %)". Below the message box is the Radiold.net logo and the "New Password" form, which now has a white input field with seven green dots representing a masked password. The green "Reset Password" button is still visible below the input field.

After you have reset your password you will get the login screen.

Just enter your Callsign, Email and Password.

Après avoir réinitialisé votre mot de passé vous allez avoir l'écran de Login.
